Validity extension by STV/ Combo Vouchers For all active customers :

"The subscriber has to recharge with Plan voucher after every "plan/recharge validity" period or any applicable recharge to avail the benefits under tariff plan. In case of recharge with applicable STV/Combo voucher, the validity of tariff plans will be extended corresponding to validity of that STV/Combo voucher. In case of non-recharge with plan voucher or any applicable recharge at the end of validity period, BSNL reserves the right to provide the plan benefits in a curtailed manner during the grace period with GP-I of 7 days and GP-II of 165days. In case this recharge condition is not met, post the grace period, the services will be suspended."

Use My BSNL App (or) portal.bsnl.in for TOPUP/Pran Validity extension/Plan Migration/Special Tariff Voucher(STV) Activation.

FRC stands for First Recharge. After expiry of FRC validity, a customer can extend plan validity or migrate to other plan vouchers (PV) that are in offer.

T&C

Free call forwarding facility is given w.e.f 04.02.2021 with GSM prepaid mobile services to LL/ other BSNL mobile number/ other operator's Mobile number (i.e. without any activation fee for the call forwarding facility) with call charges applicable as per plan.
Note:
• The call forwarding facility is free i.e. without any activation fee for the call forwarding facility. The features/facility of the call forwarding is given at free of cost.
• The call forwarding to landline/BSNL mobile/other operator mobile is with call charges applicable as per plan. The charging for call forwarding is as per plan tariff.i.e the call forwarding from BSNL mobile to another number is treated as outgoing call and is charged as per the freebies of plan/STV/tariff of the plans.
• For example, a customer in unlimited free voice plan or with unlimited free voice STV, the charging of the outgoing call is zero, similarly the call forwarding to another number is also treated as outgoing call and charged as zero. Further, if a customer is in plan 306 or any other plan with no remaining voice freebies, then the call forwarding is charged as per the voice tariff for the outgoing call in that particular plan.

Rationalization of Automatic validity extension in GP1 (wef 07.08.2020)

A. For active plans: - Deduction of Rs.2 from main balance on the second day of GP-I and revert the connection in active state for 3 days in the same active plan without any freebies.

Note:- However, the automatic validity extension scheme for customers having balance more than or equal to "Plan voucher" amount, then Plan voucher amount is reduced from main balance and the customer is reverted back to active in the same active plan with applicable freebies.

B. For the closed plans(i.e Plans not in offer): - Deduction of Rs.2 from main balance on the second day of GP-I and revert the connection in active state for 3 days in the "Premium Per Minute" plan without any freebies.

Additional condition: - ⦁ For customers of closed plans having balance more than Plan voucher amount of "Premium per minute" plan, the Plan voucher amount is reduced from main balance and the customer is reverted back to active state in "Premium Per minute" plan.
⦁ For customers of the closed plans having balance, Rs.2/- or more but less than plan voucher amount of "Premium per minute "plan, then the validity is extended for 3 days in "Premium Per minute" Plan without freebies after deducting Rs.2/-

Multiple recharging facility using selected STVs/PVs

STVs: 98 99 118 187 198 201 319 429 599
PVs: 153 199 399 485 666 997 999

This concept is applicable for the customers those who do second recharge or third recharge of the above STV/PVs .
⦁ If the customer has the above mentioned LIVE packages (first recharge) , and again if the same MRP recharge is made(second recharge) the second recharge will be added and along with this, already existing FEATURE will be removed. Resubscription will happen automatically for the second recharge done.
⦁ Similarly, if the same MRP recharge is made (third recharge) the third recharge will be added and along with this, already existing FEATURE will be removed. Resubscription will happen automatically for the third recharge done.
⦁ If the customer tries to make the 4 th recharge on the same day , the recharge will be rejected.
⦁ Again on the next day he/she is eligible for another two recharges of the same MRPs.
⦁ Necessary plan validity and freebies validity will be set through backend.
⦁ The accumulated end date of the FEATURE, PLAN VALIDITY will be backend updated
(the list of STVs/PVs having multiple recharging facility is subject to changes)
