for security has been made at various stages in Electronic Tender's software. Security related aspects as regard Bid Submission are outlined below:

(ii) As part of the Electronic Encrypted™ functionality, the contents of bid are securely encrypted using Public-Key of the specified officer of a Buyer organization. Bid-encryption in www.tenderwizard.com/BSNL is such that the Bids cannot be decrypted before the Public Online Tender Opening Event (TOE), even if there is connivance between the concerned tender-opening officers of the Buyer organization and the personnel of e-tendering service provider.

(iii) There is an additional protection with SSL Encryption during transit from the client-end computer of a Supplier organization to the e-tendering server/ portal

(ii) Every legal requirement for a transparent and secure 'Public Online Tender Opening Event (TOE)' has been implemented on www.tenderwizard.com/BSNL. www.tenderwizard.com/BSNL has a unique facility of 'Online Comparison Chart' which is dynamically updated as each online bid is opened. The format of the chart is based on inputs provided by the buyer for each tender. The information in the comparison chart is based on the data submitted by the bidders in electronic form. A detailed technical and/ or financial comparison chart enhances the transparency.

(iii) There are many more facilities and features on www.tenderwizard.com/BSNL. For a particular tender, the screens viewable by a supplier will depend upon the options selected by the concerned buyer.
