1 (i) INCREASE / DECREASE OF TENDERED QUANTITY

- a) BSNL will have the right to increase or decrease up to 25% of the Contract value depending upon the requirement of goods and services specified in the schedule of items without any change in the unit price or other terms and conditions at the time of award of contract.
- b) In exceptional situation where the requirement is of an emergent nature and it is necessary to ensure continued supplies from the existing vendors, the purchaser reserves the right to place repeat orders up to 50% of the quantity of goods and services contained in the running tender/contract within a period of 12 months from date of award of work at the same rate or a rate negotiated (downwardly) with the existing vendors considering the reasonability of rates based on prevailing market conditions and the impact of reduction in duties and taxes etc.

1 (ii) CURTAILMENT OF QUANTITY:-

BSNL reserves the right to enforce curtailment in the assigned quantum of work for any contractor on the grounds of defaults/delay in regard to execution of the individual work assigned.

2) **COMPLETION OF WORK:**-

At the time of issuing NIT for a particular work, the time allowed for completion of work consistent with magnitude and urgency of work is specified. The time allowed for carrying out the work as entered in the contract is reckoned from the tenth day after the date on which the orders to commence the work are given to the Contractor. To ensure good progress of the work during the execution, the contractor is bound in all cases in which the time allowed for any work exceeds one month (except special jobs) to complete $1/8^{th}$ of the whole of the work before $1/8^{th}$ of the time allowed under the contract has elapsed, $3/8^{th}$ of the work before half of the time has elapsed and $3/4^{th}$ of the work before $3/4^{th}$ of such time has elapsed. However, for special jobs, if a time schedule has been submitted by the Contractor and the same has been accepted by the Engineer-in-charge, the contractor shall comply with such time schedule. For Substation, the work is deemed to have been completed after clearance by Electrical Inspector.

3) **EXTENSION OF TIME:**-

If the contractor shall desire an extension of time for completion of work on the grounds of his having been unavoidably hindered in its execution or on any other grounds, he shall apply in writing to the Engineer in charge within 30 days of the hindrance on the account on which he desires such extension as aforesaid, and the Engineer in charge shall if in his opinion reasonable grounds to be shown therefore, authorize such provisional extension of time, if any as in his opinion be necessary are proper.

4) <u>COMPENSATION FOR DELAY</u>:

If the contractor fails to maintain the required progress or complete the work and clear the site on or before the contract or extended date of completion, he has to pay the compensation for delay which is limited to 0.5% per week of the tendered value for the first 10 weeks and 0.7% per week for next 10 weeks and thereafter subject to a maximum of 12% of the tendered value for the location where the work is delayed and the firm is found responsible for the same. The clause 2 of BSNL - 8 forms stands modified accordingly. Flow chart of the Procurement process/ contract shall be supplied by the contractor and approved by Executive Engineer concerned.

5) TERMS OF PAYMENT:

Quarterly Payment shall be made after completion of quarterly maintenance period. With each bill, a certificate from the Contractor that maintenance has been carried out properly and testing / drills etc. required during the period have been performed in addition to the penalty explicitly indicated under penalty clauses.

6) **EPF PROVISIONS:**-

The agency has to comply with the provisions of EPF and miscellaneous provisions Act-1952 and employees provident fund scheme-1952 as amended up to date in respect of labours /employees engaged by them for this work. Any consequence arising due to non- complying of provisions as specified above shall be the sole responsibility of the firm only.

Agency has to observe all the labour rules & regulation in force. Agency shall be fully responsible for any violation observed at any time.

7) PROGRAMME FOR EXECUTION

The firm shall supply detailed programme to Engineer-in-Charge for execution of contract within fifteen days of award of work. The programme shall contain details about submission of drawing, supply of materials, tentative dates for installation and commissioning.

8) STORES AND SAFETY

All the stores and materials required for the satisfactory completion of the work shall be arranged at work site by the contractor from his own source. Space for storing the same materials may be provided on request from the contractor. However safe custody of the material stores at site will be responsibility of the contractor.

9) **CO-ORDINATION AT SITE**

At the site of work more than one agency may be working. Full cooperation shall be extended to other agencies during the progress of work. Further work shall be carried out in such a way so that it may not cause abnormal noise and hindrance to the officers of the BSNL engaged in erection as well as to normal routine work.

10) COMPLETION DRAWINGS

The firm shall supply three sets of drawings/documents after completion of the work but before the proposed date of completion of work.

Schematic diagram.

11) CHANGES IN SPECIFICATIONS

The BSNL reserves the right to make changes in respect of specifications of work if in its opinion same is found necessary. However such alterations shall be made after mutual discussions and agreement between the BSNL and the contractor. Any price implications in this regard shall be mutually discussed and agreed up on in terms of clause 12 of EW forms. The BSNL as matter of principle will not permit modifications by the contractor in design /specifications of any document /material. However the same can be agreed upon by the BSNL under exceptional circumstances where

i. The same is necessitated due to non-availability of material/components of certain specifications/make.

(or)

ii. Such alterations constitute an improvement in the opinion of BSNL.

Prior approval is necessary before undertaking any alteration/modification in the specifications of the equipment.

12) I.S. Standards:

The entire system shall conform to relevant BIS including safety standards as amended up to date. Where IS standards are not available the British standard(s) shall be followed. In case of conflict, the requirements of these specifications shall be given over-riding priority. The electrical and earthing work shall be carried out as per CPWD specifications for electrical works (internal) and electrical works (external) as amended up to date. A list of relevant standards, approved makes of equipment is furnished and forms part of the tender document.

SPECIFICATION

- 1) The work shall be done as per current CPWD Specification for Electrical works amended from time to time & Indian Electricity Rules as attended up to date.
- 2) The work shall be supervised by qualified technical staff of the Contractor. The layout of the work will be given by the Engineer in charge or his duly authorized representative at the site of work.
- 3) The following wiring shall be done in separate conduits:
 - a) Power plug wiring. b) Light & Fan point wiring. c) Emergency Light point Wiring (AC Supply / DC Supply).d) Telephone wiring. e) Clock wiring. f) AC Unit wiring.
- 4) The number of power plug points, and emergency light points fed from DC supply shall not exceed two per circuit in any of the cases. The earthing sets shall be provided in presence of engineer in Charge or his authorized representative.
- 5) Sample of all the materials, fittings, accessories, IC switch gears etc., shall be got approved from the Engineer in-charge before using the same on work. The rejected materials shall be removed immediately from the site of work.
- 6) The Contractor will be have to carry out the following tests at his cost and intimate test results before final bills are paid. Nothing extra will be paid to him on this account.
 - a) Earth Test b) Polarity test c) Insulation test d) Earth continuity test of the surface/recessed conduits.
- 7) Any damage done to the building, by the Contractor during the execution of work shall have to be made good at his cost and risk. If he does not do it himself within a reasonable time determined by the Engineer In-charge the same will be got done at his cost departmentally after notice given to him.
- 8) The outlet boxes, IC BOXES FOR Switches and end of conduits etc. of different types of electrical wiring as mentioned in clauses above shall be painted inside / outside with different colours each signifying the different categories mentioned so as to avoid mixing of various circuits and their wiring and nothing extra will be paid for this.
- 9) ALL MATERIALS SHALL BE "ISI" MARKED or APPROVED BY THE DEPARTMENT.
- 10)At the time of laying conduits in the slab and in recess, the contractor will draw MS fish wire 16 SWG Dia. throughout conduit pipe and will have to take special care, so that the conduits do not pass through air conditioning ducts, grills, columns beams etc., If any such necessity arises, permission is to be obtained before such works in carried out. In case or failure the contractor will not be paid on this account. The successful tender should recess the conduit in the walls before the walls are plastered and in collaboration with building work.
- 11)The bakelite covers for the tumbler / piano switches, plug sockets, etc., shall not be removed or broken for taking connections which shall be done at the back by Prdg. suitable wooden rider in the IC boxes when found necessary. All IC boxes for switches, plug and regulators etc., shall be provided with 3mm thick bakelite sheet covers. The runs of various circuit wiring at various places shall be kept minimum.
- 12)All the IC distribution boards, sub main boards and their complete fittings shall be sign written, clearly indicating the No. of distribution board, the type of load, it is servings and the number of circuit connected in the distribution box etc.

- 14)Underground cables both of 1.1 kV grade and 11 / 22 kV should be subjected to pressure/insulation tests before and after laying the same in the ducts .In case of unsatisfactory test, the cost of all repairs and replacements and all extra work of removal and relaying will have to be made good by the contractor at his own risk. While make the end connections of wires, no strand shall be cut and the termination of wires shall be done with necessary lugs and ferrules without any extra payment.
- 15)The bus bars of the single phase distributions box shall be strip instead of sheet metal. The lugs shall be provided while terminating 8 SWG GI wire for earth continuity without extra payment. The termination of conduits in the junction box should be done by making proper holes instead of cutting the box. One rupee per empty boxes for the ceiling fans, fittings and other items supplied by the department will be recovered from the contractor irrespective of the size of the box.
- 16)The contractor will have to make arrangements to take the material to site of work at his own cost of risk. If any conduits and loop earth wire laid by Department, before the award of the work, the recovery for the same will be made from the contractor at the rate specified in the SR-2007(internal & External) plus the enhancement of this tender.
